

## বিদ্যাসাগর বিশ্ববিদ্যালয় VIDYASAGAR UNIVERSITY

## **Question Paper**

## **B.SC. Honours Examinations 2022**

(Under CBCS Pattern)

Semester - IV

**Subject: ZOOLOGY** 

Paper: C 8-T

(Comparative Anatomy of Vertebrates)

Full Marks: 40 Time: 2 Hours

Candidates are required to give their answers in their own words as far as practicable.

The figures in the margin indicate full marks.

1. Answer any *four* from the following questions:

(a) Describe the modification of aortic arches in urodile amphibians.

5

(b) Distinguish between pronephros and metanephors kidney.

5

(c) Draw and describe the ruminant stomach.

2+3

(d) Mention the location and name of accessory respiratory organs found in:

1×5

(i) Amphipnous sp.

(ii) Anabus sp.

(ii) Clarias sp.  (iv) Lepidosiren sp.  (v) Periophthalmos sp.  (e) Write a short note on: 2½±2½  (i) Foramen of Panizzae  (ii) Ductus Botalli  (f) Describe the structure and function of uropygial gland. 5  2. Answer any two from the following questions: 10×2=20  (a) Describe the comparative heart structure in Amphibia and Reptilia. 5+5  (b) Compare the female genital system of a bird with that of a mammal. 10  (c) Draw and describe of a typical flight feather. 10  (d) (i) Classify mammalian teeth according to the shape and size.  (ii) Describe the organ of Jacobson in tetrapods. 5+5		
(v) Periophthalmos sp.  (e) Write a short note on: 2½+2½  (i) Foramen of Panizzae  (ii) Ductus Botalli  (f) Describe the structure and function of uropygial gland. 5  2. Answer any two from the following questions: 10×2=20  (a) Describe the comparative heart structure in Amphibia and Reptilia. 5+5  (b) Compare the female genital system of a bird with that of a mammal. 10  (c) Draw and describe of a typical flight feather. 10  (d) (i) Classify mammalian teeth according to the shape and size.	(iii) Clarias sp.	
(e) Write a short note on: 2½+2½  (i) Foramen of Panizzae  (ii) Ductus Botalli  (f) Describe the structure and function of uropygial gland. 5  2. Answer any <i>two</i> from the following questions: 10×2=20  (a) Describe the comparative heart structure in Amphibia and Reptilia. 5+5  (b) Compare the female genital system of a bird with that of a mammal. 10  (c) Draw and describe of a typical flight feather. 10  (d) (i) Classify mammalian teeth according to the shape and size.	(iv) Lepidosiren sp.	
(i) Foramen of Panizzae  (ii) Ductus Botalli  (f) Describe the structure and function of uropygial gland.  5  2. Answer any <i>two</i> from the following questions:  10×2=20  (a) Describe the comparative heart structure in Amphibia and Reptilia.  5+5  (b) Compare the female genital system of a bird with that of a mammal.  10  (c) Draw and describe of a typical flight feather.  10  (d) (i) Classify mammalian teeth according to the shape and size.	(v) Periophthalmos sp.	
(ii) Ductus Botalli  (f) Describe the structure and function of uropygial gland.  5  2. Answer any <i>two</i> from the following questions:  10×2=20  (a) Describe the comparative heart structure in Amphibia and Reptilia.  5+5  (b) Compare the female genital system of a bird with that of a mammal.  10  (c) Draw and describe of a typical flight feather.  10  (d) (i) Classify mammalian teeth according to the shape and size.	(e) Write a short note on:	2½+2½
